KILLED BY THE TRAIN

YOUNG JOE GORZYCKI CRUSHED TO DEATH BY H. AND T. C. PASSENGER.

WAS ASLEEP ON THE TRACK

Returning From Party, Sat Down to Rest and Overcome by Drowsiness.

A fearful accident occurred last night just south of the College in which a young Bohemian boy lost his life. He was asleep on the H. and T. C. track when a fast passenger train came thundering down upon him crushing his life out instantly. His name was Joe Gorzycki, son of Mr. and Mrs. Henry Gorzycki, an industrious Bohemian family of the College community.

The facts as gathered by the Eagle reporter were as follows: He had been to a party with a son of Mr. J. J. Jones, a neighbor, and they were returning home walking together. When they reached a point near the water tank south of the A. and M. College, they came to where their roads separated and young Jones left him on the railroad and went to his home which was only a couple of hundred yards away and retired. He had scarcely gotten to bed when the north bound passenger came along and he heard it whistle, and then heard the noise of the brakes as if thrown on hurriedly for a quick stop. In a moment the distress whistle blew and he got up and dressed hurriedly and rushed down to the track to find his companion of only a short time before, crushed to death. It is supposed he sat down on the track to rest and was overcome by drowsiness and was asleep before he knew it.

The engineer stated that he saw an object on the track when right at it. He saw his whistle and the man started to rise and just as he did so the engine struck him. He was hit with such force that he was knocked from the track and through a wire fence. His skull was crushed and his left arm broken.

The body was brought to Bryan by the passenger and turned over to undertaker W. T. James who prepared it for burial. His parents were notified and they, with other relatives and friends came in this morning. During the day the body was taken to his home here in town, and the funeral will be conducted at 10 o'clock tomorrow morning from St. Joseph's Catholic church.

He was said to be a good boy, quiet, and steady, and would have been 17 years old next Saturday. The affair was most unfortunate and the parents have the sympathy of their many friends.

GROUND BROKEN TODAY.

Architect Jones of the firm of Jones & Tabor of Houston, and contractor Dodson also of Houston, arrived by the noon H. & T. C. train today and steps were at once taken to begin work on the M. H. James two-story brick on the corner of the post-office block. Everything was in readiness at 3 o'clock, and at that hour Mr. M. H. James, in the presence of the architect and contractor, Mr. J. A. Myers, Mr. J. W. English, the Eagle reporter and others, stuck the first pick in the ground which broke dirt on the foundations excavation. The work will be pushed with all possible haste and the building completed by January 1st next.

A MEMORY GEM.

The following excerpt from Mrs. Nannie Harrison Bell's original poem on Lee read at the L. S. Ross chapter last Friday is printed by request, some of the city teachers desiring it as a memory gem for their pupils: And in Lee's life as years go on.

We may this lesson trace:
A lost cause is not honor gone!
Defeat is not disgrace!
He says to all: What e'er befall,
Be the days dark or bright,
Keep we the brave, untarnished soul,
And we have won the fight!

THAT'S GOING SOME.

The way they are selling shoes at Coulter's is a "sin to snakes." Three families from the country were there today trading at the same time and together they bought 34 pairs of shoes. That's going some. The clerks are busy all the time selling shoes, but there is nothing remarkable in that when the reason why is explained. Coulter buys the shoes that suit the people, the best that can be made, and puts a low price on them and they move. He combines quality and price, the people know they are getting full value for their money and this explains the reason why Coulter leads them all in selling shoes. 263-52

PLAYED A TIE GAME

NEITHER FARMERS NOR TEXAS CHRISTIAN UNIVERSITY SCORED IN SATURDAY'S GAME.

WAS A BATTLE OF PUNTS

High Wind Prevents Hamilton From Making Two Goals from Field.

Bucking and punting with slight gains in nearly every instance and with but few and occasional long gains the Agricultural and Mechanical college and the Texas Christian university played each other to a tie and a standstill Saturday afternoon.

The game as a whole was a battle of punts, with A. and M. having a slight advantage in this because Hamilton put it farther in each instance yet this advantage appeared to net no appreciable gain. Once the ball was on the University 10-yard line and once it reached the College 15-yard line, but never the goal. Hamilton tried twice for field goals, but in each instance the ball went wild, the wind having something to do with this on one occasion. The game was undoubtedly a fine exhibition of defensive tactics on both sides.

College showed up better in team work in this game than ever before. In the last game Hamilton was more in it than any one else, but this time the efforts were more evenly divided as Hohn, Rugel, Tip, Taylor and Barnes especially showing much improvement. Hohn deserves praise for his work at full. He was a persistent blocker, going strong against the opposing line, and tackling he made some magnificent plays, getting his man with great accuracy and force.

Leggett Averted a Goal.

Leggett made a sensational tackle of Baldwin at a critical period when the University man was on a long run down the field and appeared to be reaching goal. Leggett was the last chance to stop him, and he took him down. A similar play occurred in the last half, only this time it was McDonald who took Thomas to the earth when it was a chance to stop a score.

For the university Rattan showed well in tackles and made several very fine plays. Thomas and Baldwin got the running honors of the day. Baldwin in the first half almost getting away with it, but was stopped in thirty yards, and in the last half Thomas made about forty yards and was heading for the goal when McDonald stopped him. Pyburn did some fine work breaking up backs.

The half ended with the ball on university's 40-yard line and the last ended with the ball on the University's 15-yard line and University's ball.

The following was the lineup:
A. and M. Position. University
Carlin-Ward. Right end ... Baldwin
Barnes ... Right tackle ... Wright
Smith-Lillard. Right guard ... Pyburn
Thompson ... Center ... Massey
Cretcher ... Left guard ... Mullican
Hooker ... Left tackle ... Fields
Rugel ... Left end ... Rattan
Leggett-McDonald Q. B. ... Thomas
Taylor ... Left halfback ... Tyson
Hamilton ... Right halfback ... Bush
Hohn ... Fullback ... Daniels

COL. W. H. TILSON.

Texarkana, Texas, Oct. 7.—Col. W. H. Tilson, a pioneer settler of Bowie county, and for the past thirty-five year one of Texarkana's most prominent citizens, died at his home here yesterday, age 72 years. The remains will be taken to Boston for interment.

Deceased leaves a large family. One of his sons is Phineas S. Tilson of Houston; Mrs. Walter Wilson, a daughter, lives at Mobile, Ala.; another daughter, Mrs. Fred Peters, lives at San Antonio. The other sons and daughters, all grown, live here.

Col. Tilson was a member of the Texas senate for four years, 1878-82. He was a charter member of the First Baptist church of Texarkana, organized in 1877, and one of its deacons since 1883.—Houston Chronicle.

Prof. P. S. Tilson, one of the surviving sons, was formerly professor of chemistry in the A. and M. College, and he has many friends here and at the A. and M. who deeply sympathize with him in the death of his father.

ARKANSAS DIAMONDS EQUAL AFRICAN GEMS

More Precious Stones Found in America Than any Other Country.

The official report of Douglass Sterrett to the United States geological survey, which has just been made public and which declares that more diamonds were found in this country than ever before, has created much surprise in Malden Lane. Mr. Sterrett finds that the diamonds produced in Arkansas are of as fine quality as those from the African fields.

Conditions in the African fields are more promising than ever before. At one point 540 diamonds were found, of which 505 aggregated 217 carats. The stones, which were cut, proved to be worth from \$60 to \$175 a carat. The other states where prospecting is now being conducted are California and Kentucky, and small diamonds are said to have been found in both.

PLENTY OF MONEY.

The Madisonville Meteor thus docty of our neighbors in that beautiful region beyond the Navasota:

Notwithstanding the drouth, hot winds and boll weevils, the farmers of Madison county have more ready money since selling their cotton crop than they have had during any one year in the past life. It's a very rare thing to pass a man that you don't see a check book in his hip pocket. All have money in the banks of Madison county.
